Notice to Residents

Greater Nanaimo Pollution Control Centre
Secondary Treatment Upgrade Project – Information and Open House
February 10 and 11, 2015 at 4600 Hammond Bay Road from 6:00 to 8:00 pm

The Greater Nanaimo Pollution Control Centre on Hammond Bay Road provides primary treatment for the City of Nanaimo, parts of the District of Lantzville, areas of Cedar, and Snuneymuxw First Nation IR #1. The facility is scheduled to be upgraded to secondary treatment by 2018 in accordance with the Regional District of Nanaimo’s Liquid Waste Management Plan Amendment. A plan showing the concept design for the Secondary Treatment Upgrade Project is provided on the back of this letter.

Site preparation for the project is scheduled for 2015 and will include tree removal and ground improvements. Tree removal is scheduled to begin in late February and last a few weeks. The ground improvements work will include rock blasting, excavation, site grading and trucking excess soil off-site. Construction of the secondary treatment upgrade is scheduled to begin mid-2016 with completion in 2018.

RDN staff will be available at the Greater Nanaimo Pollution Control Centre Facility at 4600 Hammond Bay Road (entrance off of McGuffie Road), from 6:00 to 8:00 pm on February 10 and 11, 2015 to meet with interested residents regarding tree removal plans for the Secondary Treatment Upgrade Project.

You are invited to attend an open house to view the preliminary plans and schedule for the project.

Date: February 10 and 11, 2015
Time: 6:00 pm – 8:00 pm
Location: 4600 Hammond Bay Road (entrance off of McGuffie Road)
