Above is a highlighted area on a map of the region, marked as "Electoral Area A Plan Area Boundary". The map indicates various transportation routes and recreational areas, such as parks and trails. The highlighted area is adjacent to electrical utility poles, roads, and other significant infrastructure.

The highlighted area also contains a notation about road conditions and potential hazards, mentioning "left turn possible with caution" and "right turn possible with caution". Additionally, there is a mention of "left turn dangerous intersection" and "right turn dangerous intersection".

The map also includes a legend for different types of transportation and recreational areas, such as parks, trails, and roads. The legend is located at the bottom of the map, providing a key to the various symbols used in the map's design.

Overall, the map serves as a comprehensive guide to the transportation and recreational infrastructure within the Electoral Area A Plan Area Boundary, highlighting potential hazards and offering guidance for safe navigation.

---

**Question 1:** What does it take to build a "Galloping Goose Trail"? Such a trail needs to be established with proper planning, funding, and community support. It involves clearing paths, installing signage, and ensuring accessibility for all users. The trail must also be well-maintained to ensure safety and sustainability.

**Question 2:** What responsibility does the owner have? The owner is responsible for maintaining the trail, ensuring it is safe for use, and keeping it accessible to the public. This includes regular inspections, repairs, and ensuring that any maintenance activities do not disrupt the trail for users.

**Question 3:** Why is Garbage left all around? Garbage left around the trail can be hazardous to users and the environment. It is important for community members to practice responsible waste disposal and leave the trail clean and safe for others.

**Question 4:** What is the significance of School Closures? School closures can impact the use of the trail, as children who might have used it for safe transportation to school may now need to find alternative routes. This highlights the importance of ensuring safe transportation options for all age groups.

**Question 5:** What is the purpose of the "Electoral Area A Plan Area Boundary"? The "Electoral Area A Plan Area Boundary" is likely a designated area within the region, possibly for planning purposes such as land use, infrastructure development, or environmental zoning. It helps in delineating specific areas for focused planning and development initiatives.

---

**Information Received from Workshops:**

- Connectivity: The need for better connectivity between different areas is highlighted, emphasizing the importance of maintaining and improving transportation routes.
- Safety: Improving safety measures on the trails is a priority, especially for pedestrian and cyclist safety.
- Environmental Considerations: The impact of development on the natural environment is discussed, with a focus on maintaining biodiversity and ecosystem health.

---

**Additional Notes:**

- The map includes various symbols indicating water bodies, parks, and other significant features.
- The legend provides a key to understanding the map's symbols and their meanings.
