

Water Purveyor Working Group

Fall Workshop 2015

When: Tuesday, December 1st, 2015 9:00 am – 3:00 pm

Where: Parksville Community & Conference Centre, 132 Jensen Ave. E, Parksville

Who: Anyone who owns and/or operates a water system! Do you have a well or surface water intake and more than one connection? If so, this meeting is for you!

Why: Come to network with fellow small water system operators and learn helpful management tools from expert speakers. This is an opportunity to exchange experiences, discuss challenges and tricks of the trade, and learn from each other!

Topics & Presenters

• BC Drought Response Plan & Dealing with Drought	Kirk Stinchcombe - Econics
• Surface & Ground Water Interaction & how it will be addressed via Environmental Flow Needs	Gilles Wendling – GW Solutions Inc.
• Water Treatment Technology, Water Testing & Pumping, & Rainwater Harvesting	Scott Walker – BI Pure Water Inc.
• Island Health Perspective: Point of Entry Treatment Systems, Rainwater Harvesting & Related Topics	Lynne Magee – Island Health

This is a FREE event. Light breakfast and lunch will be provided.
