**DESIGN ELEMENTS**

**1 PLAY POLES**  
special feature for the play ground, marks the entrance, directs children's movement around and through space, makes space visible from a distance, adds colour & interest to the area

**2 BOARDWALK & LOOKOUT**  
focal point for playground, provides sheltered space for sitting, marks edge of playground and forest/wetland

**3 CIRCULAR PAVED PATH**  
defines space, connects play ground elements, provides continuous movement for children on foot or on wheels, accessible to most users

**4 NATURAL PLAY AREA**  
provides play for younger children, utilizes natural elements for play, logs for balancing, sitting, imaginative play (log is a boat, house, kitchen, dinosaur, etc.), sand to manipulate, enclosed by low grassy meadow hill

**5 GRASSY HILLS**  
shape the play space, provide up & down movement for children, form a look out over the play ground, create a barrier from adjacent properties and parking
