SECTION 1

1.1 Requirement

The Regional District of Nanaimo (RDN) is issuing this Expression of Interest to determine if there is any truck manufacturer or dealer interested in supplying the French Creek Pollution Control Centre located at 957 Lee Road in Parksville, BC with a new or used Class 5 Medium Duty Flatdeck Truck with a power tailgate for hauling pallets of chemicals & general use.

The available budget is \$92,000 which includes PST, any levies and delivery to site. While the RDN will be billed for and will pay the GST, but GST does not have to be included in the budget figure.

The RDN will evaluate all submissions based on the technical specifications and price. The RDN intends to have discussions with any vendor that provides a submission to determine whether the unit will meet its needs and whether an agreement can be put in place.

1.2 General Specifications

Class 5 Medium Duty Chassis with 7250-8850 kg weight limit. New or Used.

Flat deck with headache rack, load straps (ratcheting) and side board attachment ability

Lift gate with 3000lb capacity

~200" wheel base

Preferences

4x4 drive train

Crew cab

Diesel engine

Power take off (PTO)

30" wide tool crib with adjustable shelving and full width compartments behind cab (for future crane possibilities)

96" – 108" flat deck.

SECTION 2

2.1 What to Submit:

- a) Technical specifications of truck.
