## **1. INTRODUCTION**

The purpose of this Request for Proposal is to solicit submissions from qualified firms to develop Fuels Management Prescriptions for the 707 Community Park on Gabriola Island and the RDN Arboretum property off of Maughan Road South of Nanaimo. Prescriptions must be completed by Registered Professional Foresters (RPFs) that are accredited with the Association of BC Forest Professionals (ABCFP) and need to consider the balance between potential fire behaviour implications, resource and conservation values.

The project must be completed no later than **February 4, 2022**.

## **2. BACKGROUND**

The Fuel Management Prescription is a document that describes the wildfire risk and the recommended fuel management activities in an identified area that will reduce fire behaviour attributes. Prescriptions ensure that proposed treatments include clearly defined objectives for fuel management that will result in a measurable reduction in the wildfire risk to a value while meeting all legislated and non-statutory requirements. Recommended fuel treatments are generally located within the 2-kilometer Wildland Urban Interface and can focus on vertical and horizontal fuels, fire weather components, topography and values at risk taking into consideration land management objectives such as retaining the forest canopy.

The 707 Community Park is 425.7 hectares, not including trail corridors located on undeveloped road. The Fuel Management Prescription will focus on approximately one quarter (25%) (100 ha) of the park in areas where the proponent and RDN have identified as high to moderate priority. High and moderate priority areas include high risk factors such as flammable fuels, proximity to higher density residential developments (adjacent to Jeanette Ave, Ricki Ave, Mary Road, McCollum Road, Coats Drive, Fawn Place, Fisher Road, Stanley Place, South Road), near trails and where sleeping and sheltering in public places has occurred increasing the fire risk.

The Arboretum is a 26-hectare property recently purchased by the RDN Solid Waste services located off of Maughan Road South of Nanaimo. The Arboretum was planted in 1956 with the objective of establishing all of the Canadian tree species and at one time contained 150 species of trees. The Fuels Management Prescription will assess the entire 26 hectare property for long term wildfire mitigation protecting the adjacent properties and the historical monument from fire risk for current and future generations.

## **3. SCOPE OF SERVICES**

- Host consultation sessions to engage and collaborate with key stakeholders such as the Regional District staff, Fire Departments, First Nation and Municipal partners, Provincial Government representatives.
- The Fuels Management Prescription for the 707 Community Park will include an assessment of the wildfire risk in areas where sleeping and sheltering has occurred and will make a recommendation as to whether or not, based on park conditions and wildfire risk, sleeping and sheltering in the park should be prohibited in all or some areas of the park either permanently or seasonally.
