

REQUEST FOR PROPOSALS No. 24-012

Landscape Services Parks and Trails North

Addendum 5

Issued: February 8, 2024

Closing Date & Time: on or before 3:00 PM Pacific Time on March 1, 2024

This addendum shall be read in conjunction with and considered as an integral part of the Request for Proposal. Revisions supersede the information contained in the original Proposal or previously issued Addendum. No consideration will be allowed for any extras due to any Proponent not being familiar with the contents of this Addendum. All other terms and conditions remain the same.

Questions & Answers

Q1. For the RFQ's 24-011 and 24-012 what is the definition of turf cut areas as apposed to rough cut areas? Most of the sites appear to be in a rough cut category. Is this correct?

A1. The definition for grass areas is included in section 3. Scope of services:
Grass Areas:

- Keep grass within the accepted height range.
- Follow specified turf cut standards for mowing intervals and heights.

1. Turf Cut Standard: cut as required to maintain a height of 50-65 mm (2-2.5 inches) with sufficient frequency to ensure that not more than 1/3 of the total grass height is removed at one cutting – typically every 7-10 days during the growing season.

2. Rough Cut Standard: cut as required to maintain a height of 50-100 mm (2-4 inches – typically every 10-14 days during the growing season.

- For both cut standards

1. Use mulch mowing and evenly disperse clippings to avoid clumping.
2. Trim grass area edging after each mowing to the specified standard height using a string trimmer.

- o Care is to be taken to ensure no damage against edges such as trees, garden beds, signposts, benches, tables, and any other facilities.
- o Split rail fences are to be trimmed back 1-2 feet on the far side.

The maps of individual sites show the extent of the service area, please provide pricing for both standards for each service area in Appendix B: pricing Table.
