

## Making a Basic Site Plan

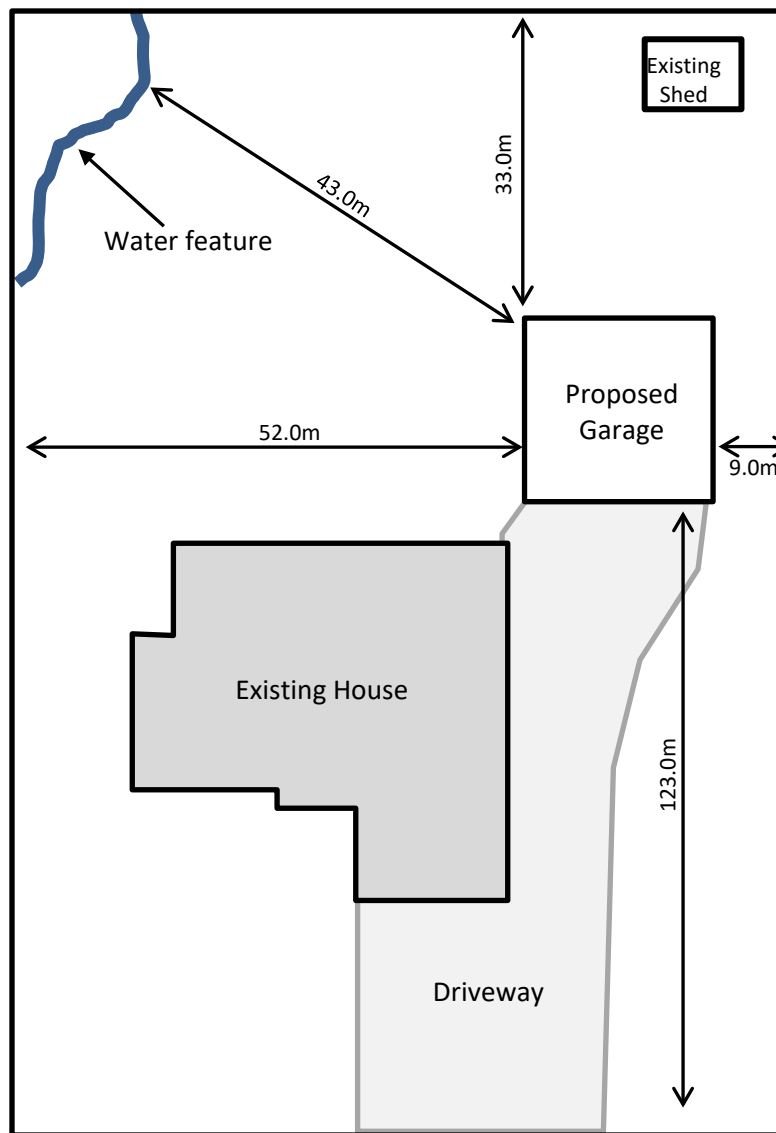

Below is a list of requirements to be included on your site plan for your building permit application. Note: some applications may require a survey prepared by a BC Land Surveyor.

### Your Site Plan must include:

- Location of proposed building or structure
- Setbacks from property lines
- Location of existing buildings and structures
- Road locations and names
- Driveway location

### Additional items:

- Any natural features (such as the ocean or a watercourse)
- The location of an Eagle or Heron Nesting Tree
- Setback from proposed building location to any natural features or nesting trees

Road Name
